Schema markup examples: JSON-LD templates

A business data sheet, a page-type map, 7 schema.org templates in JSON-LD, a pre-publication checklist and a test log. Google's rules checked against its documentation on 11 November 2026. Version: November 2026.

Website (URL) _____ Implementation date _____

Implemented by _____ Next review _____

How to use this template

1. **Collect your business details** in part 1: name, address and phone exactly as on your Google Business Profile.
2. **Assign types to pages** in part 2 and write down the URLs where each type will go.
3. **Copy a template from part 3** and replace the highlighted values. Delete fields that don't apply, together with their commas.
4. **Add the code** in a `<script type="application/ld+json">` tag in the head or body, or enter the details in your SEO plugin.
5. **Test it** in the Rich Results Test and the Schema Markup Validator, then work through the checklist in part 4.
6. **Log the result** in part 5 and check the page with URL Inspection in Search Console.

Part 1. Business details: one source for the code, the website and your profile

Enter your details once and copy them from here into every JSON-LD block. The same values must be visible on the page and on your Google Business Profile.

FIELD	SCHEMA.ORG PROPERTY	YOUR ENTRY
Business name (as on your Google Business Profile)	`name`	
Registered legal name, if different	`legalName`	
Type: the most specific LocalBusiness subtype, or Organization	`@type`	
Street address	`address.streetAddress`	
City, region and postcode	`addressLocality, addressRegion, postalCode`	
Country (ISO code)	`address.addressCountry`	
Phone with country code	`telephone`	+
Email	`email`	
Home page URL	`url`	https://
Logo, at least 112 × 112 px	`logo`	https://
Coordinates, at least 5 decimal places	`geo.latitude, geo.longitude`	
Opening hours (24-hour format)	`openingHoursSpecification`	Mon–Fri _____ Sat _____ Sun _____
Price range, under 100 characters	`priceRange`	
Tax ID and VAT number	`taxID, vatID`	
Business profile on another site (1)	`sameAs`	https://
Business profile on another site (2)	`sameAs`	https://

Part 2. Page-type map

Mark which types go on which pages and write down their URLs. Organization and WebSite only need to be on the home page.

PAGE TYPE	URL ON YOUR SITE	JSON-LD TYPES	ADDED	TEST OK
Home page	`/`	Organization or LocalBusiness, WebSite	☐	☐
About, contact		Organization or LocalBusiness, if not on the home page	☐	☐
Location page		LocalBusiness for each location, BreadcrumbList	☐	☐
Service page		BreadcrumbList	☐	☐
Blog post		Article, BreadcrumbList	☐	☐
Author page		ProfilePage with Person	☐	☐
Product page		Product with Offer, BreadcrumbList	☐	☐
Other:			☐	☐

Cheat sheet: properties Google requires

TYPE	REQUIRED	KEY RECOMMENDED
Organization	none	name, url, logo (min. 112 × 112 px), address, telephone, sameAs
LocalBusiness	name, address	telephone (with country code), url, geo (5+ decimals), openingHoursSpecification, priceRange
WebSite	name, url	alternateName; home page only
BreadcrumbList	at least 2 × ListItem: position, name, item	the last item can skip item
Article	none	headline, image, datePublished, dateModified, author (Person with url)
ProfilePage	mainEntity (Person with name)	jobTitle, description, image, sameAs
Product	name + offers, review or aggregateRating	merchant listings: image too; offers with price and priceCurrency

Part 3. JSON-LD templates to edit

Values to replace are highlighted in colour. Leave the grey ones (`@context`, `@type`, schema.org URLs) as they are. The details in the code must match what's visible on the page.

3.1 Organization · home page or About page · required: none ☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "@id": "https://www.example.com/#organization",
  "name": "Your Company",
  "legalName": "Your Company LLC",
  "url": "https://www.example.com/",
  "logo": "https://www.example.com/logo.png",
  "description": "One sentence about what your company does.",
  "email": "hello@example.com",
  "telephone": "+1 217 555 0100",
  "address": {
    "@type": "PostalAddress",
    "streetAddress": "100 Example Avenue",
    "addressLocality": "Springfield",
    "addressRegion": "IL",
    "postalCode": "62701",
    "addressCountry": "US"
  },
  "taxID": "00-0000000",
  "sameAs": ["https://www.linkedin.com/company/your-company", "https://www.facebook.com/yourcompany"]
}
```

3.2 WebSite · home page only · required: name, url ☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "WebSite",
  "name": "Your Company",
  "alternateName": "YC",
  "url": "https://www.example.com/"
}
```

3.3 LocalBusiness (here: Plumber) · home page or location page · required: name, address ☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "Plumber",
  "@id": "https://www.example.com/#business",
  "name": "Your Company",
  "url": "https://www.example.com/",
  "image": "https://www.example.com/photos/storefront.jpg",
  "logo": "https://www.example.com/logo.png",
  "telephone": "+1 217 555 0100",
  "email": "hello@example.com",
  "address": {
    "@type": "PostalAddress",
    "streetAddress": "100 Example Avenue",
    "addressLocality": "Springfield",
    "addressRegion": "IL",
    "postalCode": "62701",
    "addressCountry": "US"
  },
  "geo": { "@type": "GeoCoordinates", "latitude": 39.781721, "longitude": -89.650148 },
  "openingHoursSpecification": [
    {
      "@type": "OpeningHoursSpecification",
      "dayOfWeek": ["Monday", "Tuesday", "Wednesday", "Thursday", "Friday"],
      "opens": "08:00",
      "closes": "18:00"
    },
    { "@type": "OpeningHoursSpecification", "dayOfWeek": "Saturday", "opens": "09:00", "closes": "14:00" }
  ],
  "priceRange": "$$",
  "sameAs": ["https://www.facebook.com/yourcompany"]
}
```

3.4 BreadcrumbList · every subpage · required: at least 2 × ListItem

☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "BreadcrumbList",
  "itemListElement": [
    { "@type": "ListItem", "position": 1, "name": "Home", "item": "https://www.example.com/" },
    { "@type": "ListItem", "position": 2, "name": "Services", "item": "https://www.example.com/services" },
    { "@type": "ListItem", "position": 3, "name": "Emergency plumbing" }
  ]
}
```

3.5 Article · blog post · author as a separate Person

☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "Article",
  "headline": "Article title, same as the H1",
  "image": ["https://www.example.com/blog/cover-16x9.jpg", "https://www.example.com/blog/cover-1x1.jpg"],
  "datePublished": "2026-11-11T08:00:00-06:00",
  "dateModified": "2026-11-11T08:00:00-06:00",
  "author": [
    {
      "@type": "Person",
      "name": "Jane Doe",
      "jobTitle": "SEO Specialist",
      "url": "https://www.example.com/authors/jane-doe"
    }
  ],
  "publisher": { "@type": "Organization", "name": "Your Company", "url": "https://www.example.com/" }
}
```

3.6 ProfilePage with Person · author page · required: mainEntity, name

☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "ProfilePage",
  "dateModified": "2026-11-11T08:00:00-06:00",
  "mainEntity": {
    "@type": "Person",
    "name": "Jane Doe",
    "jobTitle": "SEO Specialist",
    "description": "One or two sentences about the author's experience and focus.",
    "image": "https://www.example.com/authors/jane-doe.jpg",
    "worksFor": { "@type": "Organization", "name": "Your Company", "url": "https://www.example.com/" },
    "knowsAbout": ["technical SEO", "structured data"],
    "sameAs": ["https://www.linkedin.com/in/your-profile"]
  }
}
```

3.7 Product with Offer · product page · required: name and offers

☐ added on: _____

```
{
  "@context": "https://schema.org",
  "@type": "Product",
  "name": "Product name",
  "image": ["https://www.example.com/products/product-name-1x1.jpg"],
  "description": "A short product description, as on the product page.",
  "sku": "SKU-0001",
  "brand": { "@type": "Brand", "name": "Brand" },
  "offers": {
    "@type": "Offer",
    "url": "https://www.example.com/products/product-name",
    "price": 39.99,
    "priceCurrency": "USD",
    "availability": "https://schema.org/InStock"
  }
}
```

Part 4. Pre-publication checklist

- ☐ Rich Results Test shows no critical errors
- ☐ Schema Markup Validator (validator.schema.org) shows no syntax errors
- ☐ Every value in the code is visible on the page: name, address, hours, price, author
- ☐ Name, address and phone identical in the code, on the page and on your Google Business Profile
- ☐ Required properties filled in, no placeholder values left (example.com, 62701)
- ☐ The most specific matching type, such as Dentist rather than LocalBusiness
- ☐ No star ratings about yourself in LocalBusiness or Organization
- ☐ Logo and images crawlable by Googlebot, not blocked in robots.txt
- ☐ One block per business: theme and plugin don't duplicate it
- ☐ Page has no noindex, isn't blocked in robots.txt and isn't behind a login
- ☐ After publishing: URL Inspection in Search Console
- ☐ Review date in the calendar: after any change to business details, prices or templates

Part 5. Test log

DATE	PAGE URL	TOOL	ERRORS AND WARNINGS	FIX, OWNER
		RRT / validator / URL		

RRT = Rich Results Test, validator = validator.schema.org, URL = URL Inspection in Search Console. After deployment, also monitor the rich result reports in Search Console.

Part 6. What not to add for an effect in Google (as of 11 November 2026)

FEATURE	STATUS	SINCE
FAQ rich result (FAQPage)	no longer shown (documentation removed in June 2026)	7 May 2026
HowTo rich result	retired on mobile and desktop	13 Sep 2023
Sitelinks search box (SearchAction in WebSite)	retired, documentation removed	29 Nov 2024
Breadcrumbs (BreadcrumbList)	desktop results only: keep them	22 Jan 2025
Stars from reviews about your own business	pages with LocalBusiness or Organization aren't eligible	standing rule
Special "AI" markup	not needed for AI Overviews or AI Mode	AI features docs

Existing FAQPage markup doesn't cause problems and there's no rush to remove it, but it no longer has any effect in Google results.
